

TRAMOS® - Cleaning and Degreasing Agents

Not a Soap or Solvent

A NEW and UNIQUE CHEMISTRY

SAFE - NON-TOXIC - BIODEGRADABLE - EFFECTIVE - ECONOMICAL

TRAMOS Products safely clean any substrate of oils, Skydrol®, hydraulic fluids, grease, carbon, brake dust, uncured resins, or paints, as well as other difficult to remove contaminants. It will leave surfaces slightly anti-static and with repeated use, subsequent cleanings will be easier! It is available in a concentrated form to allow *you* the flexibility to dilute with water to the most efficient and economical solution for *your* unique cleaning process. TRAMOS is a low VOC answer to your cleaning needs, allowing your business to comply with regulations and still clean and degrease effectively!

[TRAMOS Economic](#) is a concentrated product that when diluted with water can be used for all possible cleaning and degreasing operations.

[TRAMOS Industrial](#) is a concentrated product that can be used for the same cleaning and degreasing operations as TRAMOS Economic but has an added organic corrosion inhibitor, which protects metal surfaces for up to four weeks.

[TRAMOS Aircraft Cleaner](#) is a specialty product for airline companies and aircraft manufacturers. It is suitable for external and internal cleaning of metal and painted surfaces. It completely removes difficult substances such as Skydrol®, hydraulic oil, carbon, grease, and brake dust. Conforms to Boeing D6-17487, Douglas CDS #1, AMS 1550A, and AMS 1526B.

[TRAMOS Aircraft Hydraulic Fluid Remover](#) is a propriety blended cleaner designed to remove easily all hydraulic fluids including Skydrol® and Dinitrol AV30 anti-corrosion compound. TRAMOS AHFR is non-toxic, non-flammable, biodegradable, and free of phosphates. TRAMOS AHFR is an excellent replacement for chlorinated products and solvent based cleaners. Conforms to AMS 1526B.

[TRAMOS AeroTech 2000](#) Aircraft Cleaning Agent is an environmentally friendly, corrosion inhibitive, specialty-cleaning product for airline companies and aircraft manufacturers. It is suitable for all aircraft cleaning applications, and conforms to standards for aircraft engine cleaning. It is safe to use on all metal and painted surfaces. It safely and completely removes difficult to clean substances including oils, carbon, grease, and even dry lube (molybdenum disulfide) with no stock loss. Conforms to ARP 1755, ASTM F 519-97 TYPE 1A, and ASTM F 945-98 on AMS 4911 alloy.

[TRAMOS Oxygen Cleaner](#) is a concentrated product that when diluted with water can be used for cleaning components that are exposed to an oxygen-enriched environment.

[TRAMOS HDC](#) is an environmentally friendly specialty-cleaning product designed to remove asphalt, carbon deposits, crude oil, resins, and many other types of oils and greases. HDC is a mixture of citrus solvents, emulsifiers, and water softening agents. It is environmentally friendly, biodegradable and has a mild citrus smell.
